DETAILED ACTION

Allowable Subject Matter

Claims 1, 2, 4-35 and 37-44 are allowed.

The following is an examiner's statement of reasons for allowance: The prior art taken either singularly or in combination fails to anticipate or fairly suggest the limitations of the independent claims, in such a manner that a rejection under 35 U.S.C. 102 or 103 would be proper. Although the prior art teaches an optical element holding device having a unitary constructions, the prior art fails to teach such a device further having a drive element for effecting movement of an outer ring of the holder and a means to indicate or measure the displacement of the outer ring relative to an inner ring as claimed in independent claim 1 and 29. The reasons for allowance for independent claims 30, 31 and 33 were set forth in the Office Action mailed June 7, 2004.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

Applicant's arguments, see page 13, second and third paragraphs, filed December 9, 2004, with respect to claims 1 and 29 have been fully considered and are persuasive. The rejection of claims 1 and 29 has been withdrawn.
